

Subject	Impact of developments in the Middle East: Temporary emergency fuel surcharge
To	All customers
From	Move Intermodal
Date	12-03-2026
Nr. of pages	1

Dear customer,

The recent developments in the Middle East are resulting in sharp increases in global fuel prices over the past weeks. We have been closely monitoring the market over the past weeks since energy forms an important part of our operational expenses. We need to conclude that the speed and magnitude of these price fluctuations are not sufficiently reflected anymore in existing fuel surcharge cycles and therefore no longer reflect current market conditions.

To respond effectively and responsibly, Move Intermodal will implement a **temporary Emergency Fuel Surcharge of 7% on all transports with loading dates as from Monday, 16 March.**

To remain fair and transparent we will review the energy price developments every Friday and communicate any necessary adjustments, upward or downward, immediately.

Impact summary

- 7% Emergency Fuel Surcharge on all transports as from 16/03/2026
- Next review on Friday 20/03/2026

We understand that these changes may have an impact on your operations. But rest assured at Move Intermodal, we remain committed to supporting your business through these challenges. If you have any questions or would like to discuss the potential impact on your operations, feel free to contact your account manager.

Thank you for your continued trust.

Yours sincerely,

Move Intermodal

Ps. For those customers that use their own fuel surcharge mechanism and have already communicated a reasonable adjustment to the percentage/frequency, we will continue support your adjustment, this surcharge will not be applied on top.
