

Move Intermodal aims to be the preferred partner for innovative sustainable intermodal end-to-end solutions for bulk and packed shipments connecting Benelux-Rhein/Ruhr, Italy, UK, Ireland, Iberia and Turkey.

We believe that our unique ability to develop smart and innovative intermodal bulk and packed solutions creates the difference for our stakeholders and a sustainable environment.

Our dynamic enthusiastic teams are the basis to be the partner of choice for our customers.

Our overall objective is to continuously improve the quality of our operations and services in accordance with applicable laws and regulations to meet our customer's requirements at all times and provide our stakeholders added value and satisfaction.

We are committed to achieve the above by implementing a QMS (covering the international transport services provided by Move Intermodal¹) that complies with the requirements of ISO 9001, SQAS, GMP+, Responsible Care and Corporate Social Responsibility.

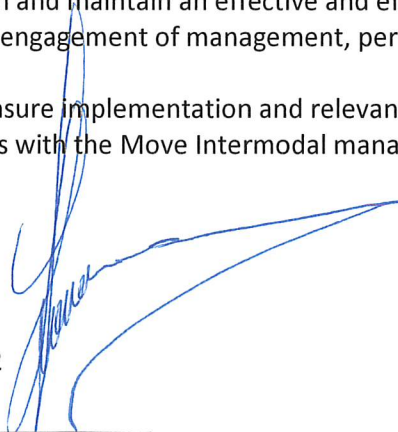

Our key quality management principles are driven by our company values:

Creativity	Always thinking along with customers in order to engineer a suitable solution for their logistical challenge.
Innovation	Constantly looking to further develop our equipment, systems and services considering sustainability, safety and security.
Sustainability	Enhancing our environmental performance by lowering carbon emissions, minimizing waste and taking part in programs like "Operation Clean Sweep".
Team	Investing in our human capital, creating an environment for personal growth and well-being, encouraging teamwork.
Excellence	Continuously improving our internal processes and systems. Quality-driven selection and management of suppliers and partners. Analyzing non-conformities and risks, creating qualitative and safe circumstances for all involved.
Reliability	Together with our suppliers and partners we consistently strive to have all our services meet customer requirements, empowered by pro-active and transparent communication.

In order to establish and maintain an effective and efficient QMS and prevent the occurrence of non-conformances, the engagement of management, personnel and our partners is indispensable.

Responsibility to ensure implementation and relevant necessary resources to realize our quality responsibilities, lays with the Move Intermodal management.
